SUMMARY

The SAV03 has been around on the market for 20 years. It is a tried and tested piece of equipment that has allowed us at Vetronic Services to focus on the things that users require. The machine has been developed to make it as simple as possible to use with any small animal under IPPV. Its easy layout and design allows the user to use IPPV with ease and grow in confidence. All of this at a small price. You will wonder why you did not get one before.

If you are interested in this product and would like further information, **let us do the work.** Write down the times when you are free and we will do our best to get back to you as soon as possible and at a convenient time for you.
